

Follows you

Burro™

No remotes or beacons

5 mph with 300 – 450 lb. load*

Simple to use

Runs cargo back autonomously

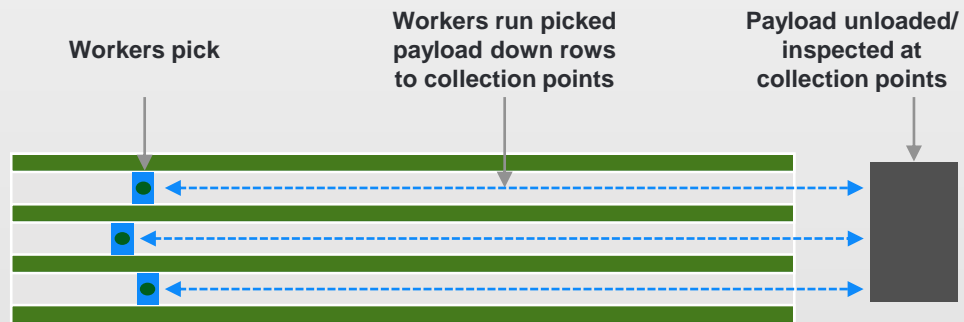

\$8-9K MSRP*

* Depending on configuration (2WD or 4WD model)

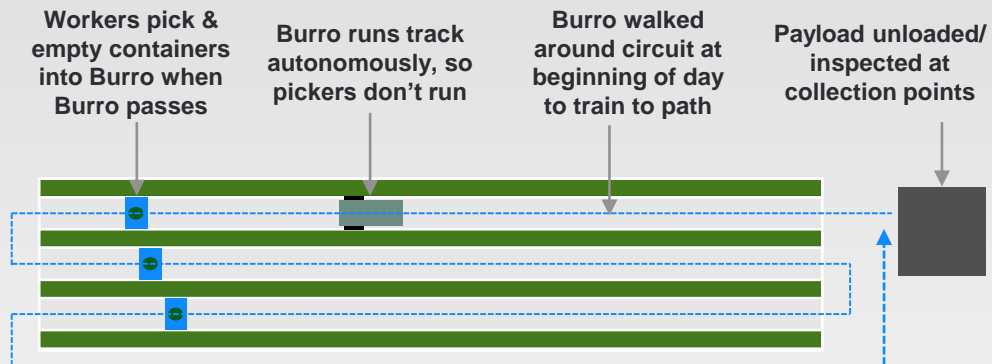

Picking Today

- Pickers pick, then run
- Physically challenging work running heavy loads back and forth
- Long distances traveled take time and cost money
- More collection points needed to reduce distance traveled

Picking With Burro

- Pickers pick
- No physically challenging work running heavy loads back and forth
- No long distances traveled, saving time and money
- Fewer collection points batched centrally
